Local Law No. 2 of the year 2017

A local law Allowing Common, Safe Items to be Excluded from the Dangerous Fireworks Definition As
(Insert Title)
Permitted by New York State Penal Law Section 405 (b)

Be it enacted by the BOARD OF SUPERVISORS of the
(Name of Legislative Body)

County City Town Village
(Select one:)

of SENECA

as follows:

Section 1. Legislative Intent

A. Whereas on November 21, 2014 the Governor signed into law Chapter 477 of the Laws of 2014 (S.7888/A10141).

B. Whereas this state law amended the State Penal Law, the Executive Law and the General Business Law placing further restrictions on dangerous fireworks while at the same time recognizing that certain fireworks should not be labeled dangerous when they pose little to no danger to the public and by labeling them dangerous only restricts business and personal enjoyment.

C. Whereas the Governor signed this version of the bill into law in part due to its strong home rule authority, only allowing for certain fireworks to be sold and used in municipalities that affirmatively enact a local law authorizing such action. In keeping with Chapter 477 of the Laws of 2014, and Penal Code §405 this Board further finds and determines that "sparkler devices" may be sold and enjoyed, only in the manner described below, within Seneca County.

D. This Board finds that allowing our residents the use of safe "sparkler devices" will benefit them and our local businesses.

Section 2. Definitions:

"Sparkling Devices" are defined as follows:

"Sparkling Devices" which are ground-based or hand-held devices that produce a shower of white, gold, or colored sparks as their primary pyrotechnic effect. Additional effects may include a colored flame, an audible crackling effect, an audible whistle effect, and smoke. These devices do not rise into the air, do not fire inserts or projectiles into the air, and do not explode or produce a report (an audible crackling-type effect is not considered to be a report).

Ground-based or hand-held devices that produce a cloud of smoke as their sole pyrotechnic effect are also included

(If additional space is needed, attach pages the same size as this sheet, and number each.)

(1) cylindrical fountain: cylindrical tube containing not more than seventy-five grams of pyrotechnic composition that may be contained in a different shaped exterior such as a square, rectangle, cylinder or other shape but the interior tubes are cylindrical in shape. Upon ignition, a shower of colored sparks, and sometimes a whistling effect or smoke, is produced. This device may be provided with a spike for insertion into the ground (spike fountain), a wood or plastic base for placing on the ground (base fountain), or a wood or cardboard handle to be hand held (handle fountain). When more than one tube is mounted on a common base, total pyrotechnic composition may not exceed two hundred grams, and when tubes are securely attached to a base and the tubes are separated from each other on the base by a distance of at least half an inch (12.7 millimeters), a maximum total weight of five hundred grams of pyrotechnic composition shall be allowed.

(2) cone fountain: cardboard or heavy paper cone containing not more than fifty grams of pyrotechnic composition. The effect is the same as that of a cylindrical fountain. When more than one cone is mounted on a common base, total pyrotechnic composition may not exceed two hundred grams, as is outlined in this subparagraph.

(3) wooden sparkler/dipped stick: these devices consist of a wood dowel that has been coated with pyrotechnic composition. Upon ignition of the tip of the device, a shower of sparks is produced. Sparklers may contain up to one hundred grams of pyrotechnic composition per item.

(4) novelties which do not require approval from the United States department of transportation and are not regulated as explosives, provided that they are manufactured and packaged as described below:

(A) party popper: small devices with paper or plastic exteriors that are actuated by means of friction (a string or trigger is typically pulled to actuate the device). They frequently resemble champagne bottles or toy pistols in shape. Upon activation, the device expels flame-resistant paper streamers, confetti, or other novelties and produces a small report.

Devices may contain not more than sixteen milligrams (0.25 grains) of Explosive composition, which is limited to potassium chlorate and red phosphorus. These devices must be packaged in an inner packaging which contains a maximum of seventy-two devices.

(B) snapper: small, paper-wrapped devices containing not more than one milligram of silver fulminate coated on small bits of sand or gravel. When dropped, the device explodes, producing a small report. Snappers must be in inner packages not to exceed fifty devices each, and the inner packages must contain sawdust or a similar, impact-absorbing material.

Section 3. Sale and use of Sparkling Devices

Sale and use of "Sparkling Devices" is permitted within the County of Seneca, New York with the following restrictions:

1) Sales will only be permitted on or between June 1st through July 5th and December 26th and January 2nd of each calendar year.

2) All distributors manufacturers and retailers must be licensed through the New York Department of State.

3) Only those over the age of 18 may purchase said products.

Section 4. Separability

If any part of or provisions of this law, or the application thereof to any person or circumstance, shall be adjudged invalid by any court of competent jurisdiction, such judgment shall be confined in its operation to the part of or provision of, or application of this law directly involved in the controversy in which case the remainder of this law, or the application thereof to other persons or circumstances shall not be effected.

Section 5. Effective Date.

This law shall take effect immediately upon filing with the Secretary of State.
